SPRING SPECTRUM

The second edition of the Felix Magazine has arrived! This time, we're exploring how spring tastes in different parts of the world. Using seasonal ingredients and flavors, we want to take our guests on a journey through various cultures—all while they relax at our bar or soak up the first warm rays of sunshine on our terrace.

To enhance the experience, each drink comes with a curated song that can be easily scanned via Spotify, as well as a scenario pairing to help set the mood. Alongside our signature cocktails, we continue to offer a selection of classic drinks, beers, wines, and more.

As always, our bar team is happy to assist with recommendations or answer any questions. Enjoy the season with us! Cheers !
